Definition of living space: space within a dwelling unit intended for human habitation which may reasonably be utilized for sleeping, eating, cooking, bathing, washing, recreation and/or sanitation purposes. An unfinished basement is considered part of the living space.

*examples of HVAC equipment: furnace replacement, solar, water heater, etc. Contact the Building Inspector with further questions.

I agree to permit inspection of these heating, ventilation and air conditioning installations by the City of New Plymouth Building Inspector. I agree to conduct any required test of the installation as required by the International Mechanical or International Fuel Gas Codes and hereby certify that these installations herein designated are made by me, the residential property owner or mechanical contractor, and that I will assume responsibility for compliance with Title 54, Chapter 50, Idaho Code. Adopted by Resolution # 2012-01.
